

PROMESS

CAPABILITY STATEMENT

Who We Are

Promess is the leading manufacturer of highly adaptive servo-controlled assembly presses and torque systems. They are used in production by companies to assemble and test the products they produce.

Core Competencies

- Closed-loop assembly and test applications
 - Press to a force
 - Press to a position
 - Press to an external sensor input
 - Torque to turn testing
- Cost reduction in manufacturing
- Modernization of press and torque applications
- Closed-loop measurement
- Production
- Stand alone press workstations

Differentiators

- 40 years of manufacturing expertise
- Low maintenance
- Long-term warranties
- Lifetime support of equipment
- In-process quality control
- Experts in bringing prototypes through to production

COMPANY

Promess Incorporated

Government Contact: Stephanie Price

Email: stephanie.price2@promessinc.com

Phone: 810-229-9334

Web: www.promessinc.com

Cage Code: 0GP25

UEI #: S9KNVMFWSC21

Headquarters

11429 Grand River Road
Brighton, MI 48116

PAST APPLICATIONS

- Engine, transmission, axle assemblies
- Battery assembly
- Carbon fiber processing
- Nuclear fuel compaction
- Fracking charge assembly

FEATURED CLIENTS

- Ford
- General Motors
- Cummins
- Textron
- Hunting Titan
- General Atomic
- Northrup Grumman
- Babcock and Wilcox
- Oak Ridge National Lab
- Los Alamos National Lab
- Bell Helicopter
- General Dynamics
- L3 Harris
- Idaho National Labs
