

HAND HELD ELECTRIC PRESS

COMPACT PRESS SERIES

Servo Press control in a compact design

The Promess fully electric Hand Held Press provides precision servo press control coupled with built in force and position monitoring capabilities. It is lightweight, compact and perfect for your final assembly applications. The Hand Held Press is controlled with Promess' standard MotionPRO Motion Controller, giving you all the power of a standard Promess Electro-Mechanical Assembly Press.

FEATURES AND BENEFITS

- + 12kN force capability
- + Fully electric
- + Fully programmable
- + Built-in force and position monitoring
- + Data collection and analysis
- + Adjustable handle positions
- + Two hand trigger switches

APPLICATIONS

- + Riveting
- + Press Fit
- + Staking
- + Crimping
