

LIGHTWEIGHT ROBOT PRESS

WATCH VIDEO

*Designed to mount directly to a robot arm

The Robot Press incorporates the Promess EMAP technology with a lightweight housing and hardened end cap, making this package ideal for any robotic application needs.

The Robot Press line comes with the capability to connect and disconnect to the robot without losing reference information. This eliminates the need for expensive and bulky tooling which is typically involved when mounting press systems to robots.

LIGHTWEIGHT PRESS INCLUDES

- + Fully programmable axes of motion
- + Integrated force transducer
- + Promess Controller with Windows based software
- + All required drives, electronics, and cables
- + Integrated Backstop motor mounting packages
- + Mounting block for easy robot installation

OPTIONS

- + Additional load cell ranges
- + Additional stroke lengths
- + Single cable feedback
- + Absolute encoder
